The response will route back thru BAA, but USD(P&R) has lead with OGC in support. I asked P&R if they tasked down to the services' M&RAs or GCs to assist with the response. More to follow on that.

**Subject:** (U//FOUO) HOT RFI: Response to SEN Murray Questions/Red Top of 15 MAR 18 on Juvenile Sexual Offenses

CLASSIFICATION: UNCLASSIFIED//FOR OFFICIAL USE ONLY

Dave

Greetings from the Army and the Authorizer side of the house! I work in Army OCLL and my team has the lead for juvenile on juvenile sexual offenses. We were tracking the SECDEF SAC-D hearing and saw her questions about the 15

MAR 18 red top. We also saw SECDEF's response to provide details to her within 7 days. I am not sure if the intent is to handle these as standard IFRs where we have some time or as questions that need a more immediate response.

My team provided a WARNO to the relevant Army staff sections who might be required to provide data in support, we are looking to you to please provide OSD direction ASAP so that these sections can be both responsive to your needs and complete other required tasks. We used SEN Murray's letter of 15 MAR 18 as a guide for our WARNO. Given the extent of her query some of our staff is concerned that they may not be able to pull together the data in the next 5 days. Therefore, I recommended that they prioritizes SEN Murray's questions based on what is feasible to gather within the 4 days and plan on a rolling release.

Assuming that other services may also have part of this DoD data call, I was hoping that you could help out the Army and our sister services by providing some guidance (1) whether SECDEF is going to respond in 7 days (2) what questions will he answer in 7 days (3) what data do you need from the Army and other services (4) what is your suspense so you have time to staff in DoD and (5) any other relevant guidance that you believe that we need so we can help OSD answer SEN Murray!

Thanks.

Vr

Marie
